ASPIRING DATA ANALYST | PYTHON, SQL & R

PROFILE

Computer Science (AI & ML) graduate with an 8.73 CGPA, building a career in data analysis. Skilled in Python, SQL and R for cleaning, analysing and visualising data, with hands-on exposure to machine learning. Completed a Data Scientist internship and co-authored a research paper.

EXPERIENCE

Web Development Intern (Offline)

[Codebind Technologies](#) | Jul 2026

Gained hands-on web development experience in an on-site internship.

Data Scientist Intern (Online)

[NetworkGeek](#) | Jul 2025

Worked through Python, NumPy and Pandas for data cleaning and visualization, then machine learning, neural networks, transformers, generative AI and LLMs.

PROJECTS

Data Professional Survey Dashboard

[Power BI](#) | 2026 | [GitHub](#)

Built an interactive Power BI dashboard analysing salary, job roles, programming languages and job satisfaction of 630 data professionals.

Seattle Airbnb Analysis Dashboard

[Tableau](#) | 2026 | [GitHub](#)

Built a Tableau dashboard on Seattle Airbnb data (Listings, Calendar, Reviews) covering average price by bedrooms, listing counts, price by zipcode and 2016 revenue.

Weather Analytics & Forecasting Dashboard

[Python](#), [Pandas](#), [Random Forest](#), [Streamlit](#) | 2026 | [GitHub](#)

Collected live weather data with the OpenWeatherMap API, performed EDA, trained a Random Forest model to forecast temperature, and built an interactive Streamlit dashboard.

PUBLICATION

ERP Management System Implementation in Educational Institutions

[MSW Management Journal](#), Vol. 36, Issue 2, 2026 (co-author)

Proposes an ERP framework unifying admissions, examinations, finance and student services on a cloud SQL database.
